Stage of the Water in Genesee River Breaks All Records.

Rochester, N. Y., July 8.—Never has such a high stage of water been seen in the Genesee river in this city at this time of the year. The Erie railroad tracks for a distance of 500 feet are under water and the upper end of Exchange street for 600 or 700 feet is flooded to the depth of two or more feet.

At Charlotte the shipping is practically tied up. The flats are flooded to an extent greater than at any time since the great ice jam last spring. The passenger steamers are experiencing difficulty in making their docks. A jam of trees and great quantity of lumber from up the valley has formed and is backing up the flood.

MONTGOMERY HAS LOST BOND CASE

Bondsmen of County Treasurer Cochran Are Not Liable

MAY YET RECOVER MONEY

Judge Jones Decides That Depositing of Check Is Mere Matter of Book-keeping and No Money Was Ever Passed.

Montgomery, July 8.—(Special.)—Montgomery County has lost its suit against the bondsmen of Treasurer Cochran for the \$111,000 for which \$100,000 of bonds authorized by the last legislature were sold to Josiah Morris & Co. The suit went off on the pleadings as to that fund, only the money in the hands of the treasurer arising out of the general collections of the county being involved in the final issue, and amounting only to some \$32,000.

The bonds were authorized by a special act of the legislature, which expresses the duty of the treasurer to be the safe keeping of the proceeds of the bonds. The act imposes on the board of revenue the function of selling them. Judge Jones construes this act as eliminating the treasurer altogether from any official connection with collecting or receiving the money, and therefore as exempting the bondsmen from any liability in connection with what may have occurred in the collection or receipting for the money by the treasurer from the bond purchasers. The liability of the bond is only for the safe keeping of the proceeds after they had been officially received by the treasurer from the board of revenue.

Facts in the Case.

The facts as admitted in the pleadings are that the bank gave a check for the money and that this check was deposited in the Morris Bank, and passed to the credit of the treasurer on the account which he kept there. Cochran's agent as treasurer, was John Kohn, cashier of the bank. The contention is that no money was ever passed, that it was a mere matter of book keeping, that it was Cochran's duty to see that the money was deposited in the bank, and that, therefore, no liability of the bond for its safe keeping ever accrued at all. This contention is sustained, but the ruling goes even further, and says that Cochran had no authority to receive the proceeds of the bonds at all from the purchaser. In other words, until the board of revenue collected the proceeds and turned them over to the treasurer, any act of Cochran's in connection with it was his individual act and not the act of the treasurer. The whole ground is thus swept under the county's feet, and nothing is left but to appeal, which will be done.

Attorneys Say Judge Is Wrong.

The county's attorneys contend stoutly that the trial judge is in error, that the treasurer's general duties under the code were being followed when he received the check for the bonds, and that any breach of duty or negligence or misconduct on his part in connection with the transaction is precisely such an act as the bond is intended to guard against. That he gave his receipt to the board of revenue for the money, and that he paid as much as \$100 in warrants drawn on this particular fund.

The grand jury is investigating the bond sale and today had before it as witnesses the Baltimore attorneys of the bond company, and the general agent of the company. The question is as to the commission of any fraud upon the county in the conversion of the bonds without due and proper payment. The community is profoundly stirred up over the suit and nothing else is talked of among the lawyers and the people.

The bond company offered one day last week to compromise the claim for \$50,000 in cash, and leave the county its claim against the Morris Bank unimpaired. As the bank has paid two installments and is a going concern with prospects of ultimately pulling out, everybody is now saying that the county ought to have accepted the compromise. Unless Judge Jones should be reversed on appeal, the county has nothing left but its claim on the bank, and from this it may yet recover the entire amount.

The case is now being tried before a jury to determine certain matters of fact and to give the complainants opportunity to except to the rulings of the court, which they are doing. It is agreed that the county will get a verdict for the \$32,000 of the general fund.

SOMETHING TO APPRECIATE

Is the Work of the British Doctors at the Corner 22nd St. and 3rd Ave. These Eminent Gentlemen Are Giving Their Services Entirely Free to All Invalids Who Call Upon Them Before July 24th.

A staff of eminent physicians and surgeons from the British Medical Institute have, at the urgent solicitation of a large number of patients under their care in this country, established a permanent branch of the Institute in this city at the corner of 22nd street and 3d avenue. These eminent gentlemen have decided to give their services entirely free for three months (medicines excepted) to all invalids who call upon them for treatment between now and July 24.

These services consist not only of consultation, examination and advice, but also of all minor surgical operations. The object in pursuing this course is to become rapidly and personally acquainted with the sick and afflicted and under no conditions will any charge whatever be made for any services rendered for three months to all who call before July 24th.

The Doctors treat all forms of disease and deformities and guarantee a cure in every case they undertake.

Male and female weakness, catarrh and catarrhal deafness, also varicose, rupture, gonorrhea, cancer and all diseases of the rectum are positively cured by their new treatment.

Hours 9 to 8. Sundays 10 to 1.

QUARREL MAY STOP THE NEW RAILROAD

PEOPLE OF THE TWO DECATURS AND MOULTON IN A ROW OVER RIGHT OF WAY THROUGH LAWRENCE COUNTY.

Courtland, July 8.—(Special.)—A warm row is now on between the people of the two Decatur and three of Moulton, in this county, and as a result of such row a railroad may fail to be built. When the new road proposed to run from Decatur through Lawrence, Winston and Walker Counties to Aberdeen, Mississippi was projected, it was agreed by the citizens of Moulton that if the road should be built within three-quarters of a mile of the courthouse at that place, certain citizens of Moulton, termed the Lawrence County committee, would furnish to the railway company depot and terminal facilities at Moulton and a right of way through Lawrence County absolutely free of cost to the company.

The first line was surveyed through Moulton, and the Lawrence County committee went about acquiring the needed lands for the terminal facilities and right of way, but when the engineers came through the county making their final survey, the road was located four miles east of Moulton, ascending the mountain at what is known as the Kelly gap. A New Decatur paper sent one of its staff writers with the engineers when the final survey was to be made, and among other matter he sent his paper an article saying in substance that the people of Moulton had refused to co-operate with the Morgan County right-of-way committee.

The people of Moulton are indignant at this article, and their indignation may mean much to the detriment of this railroad enterprise, as these people own and control 90 per cent of the lands through which the road will pass in Lawrence County.

Troy Gets Montgomery Rates.

Montgomery, July 8.—(Special.)—On application of the citizens of Troy the railroad commission today issued an order placing that city on the same footing with Montgomery as to rates on merchandise to all points on the Plant System. The reduction is considerable. As an instance, the rate on flour falls from 51 cents to 34 cents a barrel.

If the teacher could wipe away the blotches from her skin as easily as she does the caricature with its pimply face, she would be a happy woman.

Pimples and eruptions are more than a disfigurement to a woman—they make her sensitive and unhappy. The way to cleanse the skin is to purify the blood. Dr. Pierce's Golden Medical Discovery purifies the blood, and removes the clogging accumulations and poisons which corrupt it. When these are removed, pimples, boils, eruptions, sores, and other consequences of impure blood are entirely cured.

"For about one year and a half my face was very badly broken out," writes Miss Carrie Adams, of 126 West Main St., Butterfield, Mich. "I spent a great deal of money with doctors and tried all kinds of medicine, but received no benefit. At last I obtained a bottle of Dr. Pierce's Golden Medical Discovery. Before I had taken one bottle of this medicine I noticed a change, and after taking three bottles I was entirely cured. I can well recommend Dr. Pierce's Golden Medical Discovery to any one similarly afflicted."

Accept no substitute for the "Discovery." There is nothing "just as good" for impure blood and skin diseases.

The People's Common Sense Medical Adviser, 1008 pages, is given away. Send 21 one-cent stamps expense of mailing only, for the book in paper covers, or 31 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

PRIMARY MEN FORMULATING PLAN

EX-SENATOR PULLEY AND HUGH WILSON HAVE ALREADY ARRIVED IN MONTGOMERY—GOV. JOHNSTON EXPECTED TODAY.

Montgomery, July 8.—(Special.)—A well-defined report is abroad tonight that there will be a meeting here tomorrow for the purpose of formulating a plan for a primary to be presented to the state committee on Thursday. The advance guard is already here in the persons of ex-Senator Pulley of Madison and Hugh Wilson of Opelika. Governor Johnston was expected tonight but did not arrive. He will come down tomorrow. That a meeting will be held there is no doubt.

Mr. Hefflin, who is here, will not be in the meeting, but it is now known that he did not resign from the committee for the express purpose of supporting the primary. He has spent the day on the streets talking primary and his confidence has done much to check a growing doubt as to whether the committee might not order a convention after all.
